

The Mendip Mobile Advice Service

The Mendip Mobile Advice Service is a two year project funded by the Advice Services Transition Fund. The five agencies working in partnership with Mendip Citizens Advice Bureau are: Somerset Care and Repair, Mendip YMCA; Elim Connect Centre; Mendip Community Support and Aster Communities.

These partner agencies have committed to take an advice service out to the rural communities of Mendip area who are currently digitally excluded. The aim at the end of the project is to establish three permanent local information hubs to be run by the local community for their residents.

The villages of Mendip can also request the Mobile Advice Service to come to events such as village days, fetes etc through the Project Coordinator.

The service to Leigh On Mendip will be starting on Monday 15th September and will always be the same day as the Community Coffee Morning, the third Monday of the month. We will park on the village hall carpark. There is no need to book an appointment just pop in to the van where there will always be a Citizens Advice member of staff.

If you are able to offer some time, particularly as a volunteer driver, or would like more information please contact me I am based in the Shepton Mallet office:
